

CELLEBRITE COLLECTOR AND INSPECTOR OPERATOR (CCIO)

Mobile Forensics

Course Description

CCIO (Cellebrite Collector and Inspector Operator) is a four (4) day entry level course designed to provide users with an introduction to digital forensics methodologies using Cellebrite tools, Digital Collector and Inspector. Whether the goal is to learn the fundamentals for investigative techniques or gain experience with Cellebrite's tools, the CCIO course provides a perfect opportunity. The course is taught using a full scenario-based investigative tutorial to better merge the different skill levels of attendees.

Level

Entry/Beginner

Length

Four-Day (28 hours)

Delivery Mode

Course Learning Objectives

Upon successful completion of this course, students will be able to:

- Apply the appropriate procedures for live triage and imaging in digital investigations for both MacOS and Windows OS.
- Experiment with the features and functions of Digital Collector for various investigative purposes.
- Defend the value of booting and using Digital Collector for the purposes of data collection to ensure the security of the collected data.
- Select the relevant settings for various file systems on both MacOS and Windows OS for various scenarios.
- Collect forensic data from various devices using Inspector, ensuring best practices for digital forensic case management.
- Generate an ethically and legally sound digital forensics report for various investigative purposes.
- Perform ethically and legally sound data extractions verifying hash sets and using third party validation techniques to promote the integrity of the data in the investigation.
- Participate in the digital investigative process through exploring file carving, email evidence, and internet artifacts for MacOS and Windows OS and explain the significance of these artifacts regarding the digital forensic process.

Note

The successful completion of this course is defined as the student being able to demonstrate proficiency in the course learning objectives by passing a final exam assessment with a minimum score of 80.00% or higher to be awarded a certificate of completion.

Empowering Justice through Expert Digital Forensics Training

Cellebrite Training is a leading provider of digital forensics education, offering a comprehensive suite of courses designed to empower professionals in mastering the techniques, tools, and methodologies essential for navigating the complexities of digital investigations.
