

Cellebrite Academics

Build the Next Generation of Digital Forensics Experts

Give students real-world investigative skills with Cellebrite Academics.

Bridget the gap between classroom learning and real-world investigations.

- Align curriculum to real workflows
- Train on industry tools
- Prepare students for certification and careers

What Your Institution Gets

Everything needed to launch or upgrade your program

- **Ready-to-teach curriculum:** CCO + CCPA student guides and instructor materials
- **Hands-on experience:** Inseyets UFED simulation + Inseyets Physical Analyzer training (no hardware required) + network license
- **Certification pathway:** CCO and CCPA exams available to students
- **Dedicated support:** Onboarding, guides, and ongoing program help

Choose Your Program Focus

Mobile Forensics

Teach mobile device extraction and analysis with Inseyets UFED and Physical Analyzer

Computer Forensics

Teach computer-based evidence collection and analysis using Digital Collector and Inspector

What's New for 2026

- Updated Inseyets CCO and CCPA curriculum
- Inseyets UFED simulations (no hardware required)
- Hands-on Inseyets Physical Analyzer training
- Expanded instructor resources and support

Getting Started is Simple

- Accredited academic institution
- Assigned program lead
- Partnership agreement

Aligned to Industry Certifications

Cellebrite Certified Operator for Inseyets (CCO)
Cellebrite Certified Physical Analyst for Inseyets CCPA)
